

# 2025 FULL REPORTS OF THE MINAMATA CONVENTION ON MERCURY

Report submitted on 5 February 2026

\*Questions 7.1, 7.2, 8.2 and Part E of Article 11 amended by Benin on 4 March 2026.

## REPORTING PERIOD:

1 January 2021 to 31 December 202

*Attachments can be found on the website*

### ▼ INFORMATION ON THE PARTY

## 1. Information on the party

#### Name of party

Bénin

#### Date on which its instrument of ratification, accession, approval or acceptance was deposited

7 novembre 2016

#### Date of entry into force of the Convention for the party

16 août 2017

## 2. Information on the national focal point

#### Full name of the institution

Ministère du Cadre de Vie et des Transports, en charge du Développement Durable

#### Title of Contact Officer

Ms.

#### Name of Contact Officer

Sandra Gonou

#### Mailing address

01BP3621 COTONOU

#### Telephone number

+2290197372864

#### Fax number

{Empty}

#### E-mail

[sandragonou@gmail.com](mailto:sandragonou@gmail.com)

#### Second E-mail

[sandragonou@gmail.com](mailto:sandragonou@gmail.com)

#### Web page

{Empty}

## 3. Information about the contact officer submitting the reporting format if different from the above

#### Focal Point is submitting the national report

- Information is submitted by the national focal point
- Information is submitted through the national focal point by the contact officer

### ▼ ART. 3: MERCURY SUPPLY SOURCES AND TRADE

**3.1: Does the party have any primary mercury mines that were operating within its territory at the date of entry into force of the Convention for the party?**

- Yes - primary mercury mining with available data
- Yes - primary mercury mining with no available data
- No

**3.2: Does the party have any primary mercury mines that are now in operation that were not in operation at the time of entry into force of the Convention for the party?**

- Yes - primary mercury mining with available data
- Yes - primary mercury mining with no available data
- No

**3.3: (A) Has the party endeavoured to identify individual stocks of mercury or mercury compounds exceeding 50 metric tons that are located within its territory?**

**3.3: (A) Has the party endeavoured to identify individual stocks of mercury or mercury compounds exceeding 50 metric tons that are located within its territory?**

- Yes - with new data\* (also to be selected by parties reporting for the first time)
- Yes - endeavoured and indicates same stocks as reported in the previous report
- No

**3.3: (B) Has the party endeavoured to identify individual sources of mercury-supply-generating stocks exceeding 10 metric tons per year that are located within its territory?**

**3.3:(B) Has the party endeavoured to identify individual sources of mercury-supply-generating stocks exceeding 10 metric tons per year that are located within its territory?**

- Yes - with new data\* (also to be selected by parties reporting for the first time)
- Yes - endeavoured and indicates same stocks as reported in the previous report
- No

**3.4: Has the party determined that it has excess mercury available from the decommissioning of chlor-alkali facilities?**

- Yes
- No - has determined it has no excess mercury
- No - has not made a determination

**3.5: \*Has the party received consent, or relied on a general notification of consent, in accordance with article 3, including any required certification from importing non-parties, for all exports of mercury from the party's territory in the reporting period?**

- Yes - exports to parties
- Yes - exports to non-parties
- No - no export took place
- No - consent was not given

**3.6: Has the party allowed the import of mercury from a non-party?**

- No

- Yes
- The importing party has relied on paragraph 7 of article 3

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 4: MERCURY-ADDED PRODUCTS

**4.1. Has the party taken any appropriate measures to not allow the manufacture, import or export of mercury-added products listed in Part I of Annex A of the Convention after the phase-out date specified for those products?**

- Yes
- No
- Yes (implementing paragraph 2 of article 4)

**If no, has the party registered for an exemption pursuant to article 6?**

- Yes
- No

**4.3: (A) Has the party taken two or more measures listed in subparagraphs (i) to (ix) of part II of annex A for the mercury-added products listed in part II of annex A in accordance with the provisions set out therein?**

**4.3:(A) Has the party taken two or more measures listed in subparagraphs (i) to (ix) of part II of annex A for the mercury-added products listed in part II of annex A in accordance with the provisions set out therein?**

- Yes
- No

**If yes, please provide information on the measures.**

Au nombre des mesures prises, on peut mentionner:

- i) la définition des objectifs nationaux de prévention des caries et de promotion de l'hygiène dentaire pour réduire autant que possible le besoin de restauration dentaire;
- iii) la promotion de l'utilisation de matériaux de restauration dentaire économiques et cliniquement efficaces qui ne contiennent pas de mercure;
- viii) la restriction de l'utilisation d'amalgames dentaires à leur forme encapsulée.

**4.3: (B) If the amendment to annex A adopted in decision MC-4/3 has entered into force for the party, has the party (please check the appropriate box below) taken relevant measures:**

**4.3:(B) If the amendment to annex A adopted in decision MC-4/3 has entered into force for the party, has the party (please check the appropriate box below) taken relevant measures:**

- Yes
- No
- Not applicable

**If the party answered yes please select from the bellow checkboxes**

Excluded or not allowed, by taking measures as appropriate, the use of mercury in bulk form by dental practitioners

Excluded or not allowed, by taking measures as appropriate, or recommended against, the use of dental amalgam for the dental treatment of deciduous teeth of patients under 15 years of age and of pregnant and breastfeeding women, except when such use is considered necessary by the dental practitioner based on the needs of the patient

**If the party answered yes to either option above, please provide information on the measures.**

Les unités de soins en dentisterie (surtout publiques) utilisent la forme encapsulée pour les amalgames dentaires

**4.4: Has the party taken measures to prevent the incorporation into assembled products of mercury-added products whose manufacture, import and export are not allowed for it under article 4?**

Yes

No

No – not applicable (do not have facilities assembling products using mercury-added products)

**4.5: Has the party discouraged the manufacture and the distribution in commerce of mercury-added products not covered by any known use in accordance with article 4, paragraph 6?**

Yes

No – no action taken

No – an assessment of the risks and benefits of the product demonstrates benefits to human health or the environment

**If the party answered no – no action taken, please explain.**

des textes de lois (décret et arrêtés) sont en cours d'être pris à cet effet.

## **Part E – Additional comments on this article**

{Empty}

### **▼ ART. 5: MANUFACTURING PROCESSES IN WHICH MERCURY OR MERCURY COMPOUNDS ARE USED**

**5.1: Are there facilities within the territory of the party that use mercury or mercury compounds for the processes listed in Annex B of the Minamata Convention in accordance with paragraph 5 of article 5 of the Convention?**

Yes

No

Do not know

**5.2: Are measures in place to not allow the use of mercury or mercury compounds in manufacturing processes listed in Part I of Annex B after the phase-out date specified in that Annex for the individual process?**

#### **CHLOR-ALKALI PRODUCTION**

Yes

No

Not applicable (do not have these facilities)

**ACETALDEHYDE PRODUCTION IN WHICH MERCURY OR MERCURY COMPOUNDS ARE USED AS A CATALYST**

- Yes
- No
- Not applicable (do not have these facilities)

**5.3: Are measures in place to restrict the use of mercury or mercury compounds in the processes listed in Part II of Annex B in accordance with the provisions set out therein?**

**VINYL CHLORIDE MONOMER PRODUCTION**

- Yes
- No
- Not applicable (do not have these facilities)

**SODIUM OR POTASSIUM METHYLATE OR ETHYLATE**

- Yes
- No
- Not applicable (do not have these facilities)

**PRODUCTION OF POLYURETHANE USING MERCURY-CONTAINING CATALYSTS**

- Yes
- No
- Not applicable (do not have these facilities)

**5.4: Is there any use of mercury or mercury compounds in a facility using the manufacturing processes listed in Annex B that did not exist prior to the date of entry into force of the Convention for the party?**

- Yes
- No

**5.5: Has the party discouraged the development of any facility using any other manufacturing process in which mercury or mercury compounds are intentionally used that did not exist prior to the date of entry into force of the Convention?**

- Yes
- No - no action taken
- No - the party demonstrated to the Conference of the Parties the significant environmental and health benefits of the manufacturing process and that there are no technically and economically feasible mercury-free alternatives available providing such benefits.

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 7: ARTISANAL AND SMALL-SCALE GOLD MINING

**7.1: Have steps been taken to reduce, and where feasible eliminate, the use of mercury and mercury compounds in, and the emissions and releases to the environment of mercury from, artisanal and small-scale gold mining and processing subject to article 7 within your territory?**

Yes

No

There is no artisanal and small-scale gold mining and processing subject to article 7 in which mercury amalgamation is used in the territory

**If yes, please provide information on the steps.**

In fact, Decree No. 71/MMEH/DC/SGM/CTRNE/CTJ/DGM/SA of August 19, 2024, regulating gold mining in the Republic of Benin, states in Article 11 that the use of explosives, chemicals, or toxic substances (cyanide, mercury, etc.) that could pollute groundwater, rivers, the ecosystem, or prevent agricultural use of the land after the work is prohibited.

**7.2: Has the party determined, and notified the secretariat, that artisanal and small-scale gold mining and processing within its territory is more than insignificant?**

Yes

No

**7.5: Supplemental: Has the party cooperated with other countries or relevant intergovernmental organizations or other entities to achieve the objective of this article?**

Yes

No

**Please provide information**

{Empty}

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 8: EMISSIONS

**8.1: Identify any Annex D source categories for which there are new sources of emissions of mercury or mercury compounds as defined in paragraph 2 (c) of article 8.**

For each of those source categories describe the measures in place, including the effectiveness of such measures, to implement the requirements of paragraph 4 of article 8.

Coal-fired power plants

Coal-fired industrial boilers

Smelting and roasting processes used in the production of non-ferrous metals

Waste incineration facilities

Cement clinker production facilities

Has the party required the use of best available techniques or best environmental practices (BAT/BEP) to control and where feasible reduce emissions for new sources no later than 5 years after the date of entry into force of the Convention for the party?

- Yes
- No (please explain)

**No (please explain)**

Les installations de production de clinker existent avant la date d'entrée en vigueur de la Convention. Toutefois, des séances d'échanges d'informations sont organisées.

## 8.2: Identify any Annex D source categories for which there are existing sources of emissions of mercury or mercury compounds as defined in paragraph 2 (e) of article 8.

For each of those source categories, select and provide details on the measures implemented under paragraph 5 of article 8 and explain the progress that these applied measures have achieved in reducing emissions over time in your territory:

### ▼ COAL-FIRED POWER PLANTS

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

**Measures**

{Empty}

**Progress**

{Empty}

### ▼ COAL-FIRED INDUSTRIAL BOILERS

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

**Measures**

{Empty}

**Progress**

{Empty}

#### ▼ SMELTING AND ROASTING PROCESSES USED IN THE PRODUCTION OF NON-FERROUS METALS

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

##### Measures

{Empty}

##### Progress

{Empty}

#### ▼ WASTE INCINERATION FACILITIES

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

##### Measures

{Empty}

##### Progress

{Empty}

#### ▼ CEMENT CLINKER PRODUCTION FACILITIES

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

##### Measures

L'utilisation des meilleures techniques disponibles et des meilleures pratiques environnementales pour contrôler les émissions

##### Progress

Clinker manufacturing plants are making efforts to implement their environmental and social management plans by equipping their facilities with appropriate filters to minimize emissions and using personal protective equipment to reduce inhalation. They regularly submit their activity reports to the agency responsible for environmental audits at their units.

**Have the measures for existing sources under paragraph 5 of article 8 been implemented no later than 10 years after the date of entry into force of the Convention for the party?**

- Yes  
 No

**8.3: Has the party prepared an inventory of emissions from relevant sources within 5 years of entry into force of the Convention for it?**

- Yes  
 No  
 Have not been a party for 5 years

**If yes, when was the inventory last updated?**

31 January 2022

**Please indicate where this inventory is available**

Document d'inventaire de niveau 2 transmis au secrétariat de la Convention.

**Attach**

- [BEN\\_8.3.pdf](#)

**8.4: Has the party chosen to establish criteria to identify relevant sources covered within a source category?**

- Yes  
 No

**8.5: Has the party chosen to prepare a national plan setting out the measures to be taken to control emissions from relevant sources and its expected targets, goals and outcomes?**

- Yes  
 No

**Part E – Additional comments on this article**

{Empty}

**▼ ART. 9: RELEASES**

**9.1: Are there, within the party's territory, relevant sources of releases as defined in paragraph 2 (b) of article 9?**

- Yes  
 No  
 Do not know (please explain)

**9.2: Has the party established an inventory of releases from relevant sources within 5 years of entry into force of the convention for it?**

- Yes  
 Relevant sources do not exist in the territory

- Have not been a party for 5 years
- No (please explain)

**When was the inventory last updated?**

31 January 2022

**Please indicate where this inventory is available.**

[BEN\\_9.2.pdf](#)

**Please explain**

{Empty}

### **Part E – Additional comments on this article**

{Empty}

#### **▼ ART. 10: ENVIRONMENTALLY SOUND INTERIM STORAGE OF MERCURY, OTHER THAN WASTE MERCURY**

**10.1: Has the party taken measures to ensure that the interim storage of non-waste mercury and mercury compounds intended for a use allowed to a party under the Convention is undertaken in an environmentally sound manner?**

- Yes
- No (please explain)
- Do not know (please explain)

**If no, please explain**

Le Bénin étant Partie à la Convention de Bâle, les dispositions requises seront également observées en ce qui concerne la gestion des déchets mercuriels.

### **Part E – Additional comments on this article**

{Empty}

#### **▼ ART. 11: MERCURY WASTES**

**11.1: Have measures outlined in article 11, paragraph 3, been implemented for the party's mercury waste?**

- Yes
- No

**If no, please explain**

{Empty}

**11.2: \*Are there facilities for final disposal of waste consisting of mercury or mercury compounds in the party's territory?**

- Yes
- No
- Do not know (please explain)

### **Part E – Additional comments on this article**

Among the measures described in paragraph 3 of Article 11, the Party has organized information exchange sessions (in particular with the administration responsible for mine management and NGOs working in the sector).

Furthermore, as Benin is a Party to the Basel Convention, the implementation of the obligations arising from this convention is highly relevant to meeting the provisions of Article 11.

▼ ART. 12: CONTAMINATED SITES

**12.1: Has the party endeavoured to develop strategies for identifying and assessing sites contaminated by mercury or mercury compounds in its territory?**

Yes

No

**Please elaborate**

La mobilisation des ressources est en cours à cet effet.

**Part E – Additional comments on this article**

{Empty}

▼ ART. 13: FINANCIAL RESOURCES AND MECHANISM

**13.1: Has the party undertaken to provide, within its capabilities, resources in respect of those national activities that are intended to implement the Convention in accordance with its national policies, priorities, plans and programmes?**

Yes

No

**Please specify**

Des activités de sensibilisation sont menées notamment lors de la célébration de la journée mondiale de l'environnement pour laquelle un budget est alloué.

**13.2: Supplemental: Has the party, within its capabilities, contributed to the mechanism referred to in paragraph 5 of article 13?**

Yes

No

**Please provide comments, if any.**

{Empty}

**13.3: Supplemental: Has the party provided financial resources to assist developing-country parties and/or parties with economies in transition in the implementation of the Convention through other bilateral, regional and multilateral sources or channels?**

Yes

No

**Please specify**

{Empty}

**Please provide comments, if any.**

{Empty}

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 14: CAPACITY-BUILDING, TECHNICAL ASSISTANCE AND TECHNOLOGY TRANSFER

**14.1: Has the party cooperated to provide capacity-building or technical assistance, pursuant to article 14, to another party to the Convention?**

Yes

No

**Please specify**

Il n'y en a pas eu pendant cette période.

**14.2: Supplemental: Has the party received capacity-building or technical assistance pursuant to article 14?**

Yes

No

**Please specify**

{Empty}

**Please provide comments, if any.**

{Empty}

**14.3: Has the party promoted and facilitated the development, transfer and diffusion of and access to, up-to-date environmentally sound alternative technologies?**

Yes

No

Other

**Please specify**

Nous avons participé à des sensibilisations avec des ONG sur la problématique de la gestion des produits chimiques dont le mercure.

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 16: HEALTH ASPECTS

**16.1: Have measures been taken to provide information to the public on exposure to mercury in accordance with paragraph 1 of article 16?**

Yes

No

**Supplemental: If yes, describe the measures that have been taken.**

Des séances d'échanges d'information avec les journalistes sur la pollution mercurielle ont été organisées

**16.2: Have any measures been taken to protect human health in accordance with article 16 beyond the provision of information to the public on exposure to mercury (referred to in question 16.1)?**

Yes

No

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 17: INFORMATION EXCHANGE

#### 17.1: Has the party facilitated the exchange of information referred to in article 17, paragraph 1?

Yes

No

If yes, the Party may wish to indicate in the space provided below the exchange of information it has facilitated, such as:

Scientific, technical, economic and legal information concerning mercury and mercury compounds, including toxicological, ecotoxicological and safety information

Information on the reduction or elimination of the production, use, trade, emissions and releases of mercury and mercury compounds

**Information on the reduction or elimination of the production, use, trade, emissions and releases of mercury and mercury compounds**

{Empty}

Information on technically and economically viable alternatives to:

**Mercury-added products**

{Empty}

**Manufacturing processes in which mercury or mercury compounds are used**

{Empty}

**Activities and processes that emit or release mercury or mercury compounds**

{Empty}

Epidemiological information concerning health impacts associated with exposure to mercury and mercury compounds, in close cooperation with the World Health Organization and other relevant organizations, as appropriate. (Art. 17.1 (a)–(d))

## Part E – Additional comments on this article

{Empty}

### ▼ ART. 18: PUBLIC INFORMATION, AWARENESS AND EDUCATION

#### 18.1: Have measures been taken to promote and facilitate the provision to the public of the kinds of information listed in article 18, paragraph 1?

Yes

No

If yes, the party may wish to indicate in the space provided below, the measures it has taken to promote and facilitate information to the public, such as:

(a) Provision to the public of available information on:

The effects of mercury and mercury compounds on human health and the environment

**The effects of mercury and mercury compounds on human health and the environment**

{Empty}

Alternatives to mercury and mercury compounds

#### Alternatives to mercury and mercury compounds

{Empty}

The topics identified in paragraph 1 of article 17

The results of its research, development and monitoring activities under article 19

Activities to meet its obligations under the Convention

#### Activities to meet its obligations under the Convention

{Empty}

**(b) Education, training and public awareness related to the effects of exposure to mercury and mercury compounds on human health and the environment in collaboration with relevant intergovernmental and non-governmental organizations and vulnerable populations, as appropriate.**

#### Activities to meet its obligations under the Convention

{Empty}

**(Art. 18 (1) (a) and (b))**

### Part E – Additional comments on this article

{Empty}

#### ▼ ART. 19: RESEARCH, DEVELOPMENT AND MONITORING

### 19.1: Has the party undertaken any research, development and monitoring in accordance with paragraph 1 of article 19?

Yes

No

If yes, the party may wish to indicate in the space provided below, the research, development and monitoring it has undertaken, such as:

Inventories of use, consumption, anthropogenic emissions to air and releases to water and land of mercury and mercury compounds

**Inventories of use, consumption, anthropogenic emissions to air and releases to water and land of mercury and mercury compounds**

{Empty}

Modelling and geographically representative monitoring of levels of mercury and mercury compounds in vulnerable populations and in environmental media, including biotic media such as fish, marine mammals, sea turtles and birds, as well as collaboration in the collection and exchange of relevant and appropriate samples

**Modelling and geographically representative monitoring of levels of mercury and mercury compounds in vulnerable populations and in environmental media, including biotic media such as fish, marine mammals, sea turtles and birds, as well as collaboration in the collection and exchange of relevant and appropriate samples**

{Empty}

Assessments of the impact of mercury and mercury compounds on human health and the environment, in addition to social, economic and cultural impacts, particularly in respect of vulnerable populations

Harmonized methodologies for the activities undertaken under subparagraphs (a), (b) and (c) of paragraph 1 of article 19

- Information on the environmental cycle, transport (including long-range transport and deposition), transformation and fate of mercury and mercury compounds in a range of ecosystems, taking appropriate account of the distinction between anthropogenic and natural emissions and releases of mercury and of remobilization of mercury from historic deposition
- Information on commerce and trade in mercury and mercury compounds and mercury-added products
- Information and research on the technical and economic availability of mercury-free products and processes and on best available techniques and best environmental practices to reduce and monitor emissions and releases of mercury and mercury compounds

(Art. 19 (1) (a)-(g))

## Part E – Additional comments on this article

{Empty}

### ▼ COMMENTS REGARDING POSSIBLE CHALLENGES IN MEETING THE OBJECTIVES OF THE CONVENTION

## Part C: Comments regarding possible challenges in meeting the objectives of the Convention

{Empty}

### ▼ COMMENTS REGARDING THE REPORTING FORMAT AND POSSIBLE IMPROVEMENTS, IF ANY

## Comments regarding the reporting format and possible improvements, if any
