INFORMATION ON THE PARTY

1. Information on the party

Name of party
Cuba

Date on which its instrument of ratification, accession, approval or acceptance was deposited
30 January 2018

Date of entry into force of the Convention for the party
30 April 2018

2. Information on the national focal point

Full name of the institution
Cuban Ministry of Science, Technology and Environment

Title of National Focal Point
Mr.

Name of National Focal Point
Ulises Fernández Gómez

Mailing address
ulises@citma.gob.cu

Telephone number
+5352858992

Fax number
{Empty}

E-mail
cuba@localhost

Second E-mail

Web page
{Empty}

3. Information about the contact officer submitting the reporting format if different from the above

Focal Point is submitting the national report

Information is submitted by the national focal point
ART. 3: MERCURY SUPPLY SOURCES AND TRADE

3.1. Does the party have any primary mercury mines that were operating within its territory at the date of entry into force of the Convention for the party?

- Yes
- No

Additional information on this question if needed

3.2. Does the party have any primary mercury mines that are now in operation that were not in operation at the time of entry into force of the Convention for the party?

- Yes
- No

3.3. Has the party endeavoured to identify individual stocks of mercury or mercury compounds exceeding 50 metric tons and sources of mercury supply generating stocks exceeding 10 metric tons per year that are located within its territory?

- Yes
- No

If the party answered No above, please explain.
Cuba se encuentra en estos momentos comenzando la Evaluación Inicial de Minamata a través de un proyecto financiado por el GEF el cual debe concluir en el 2023 por lo que no tenemos resultados que nos avalen dar esta respuesta.

3.4. Does the party have excess mercury available from the decommissioning of chlor–alkali facilities?

- Yes
- No

If yes, please explain the measures taken to ensure that the excess mercury was disposed of in accordance with the guidelines for environmentally sound management referred to in paragraph 3 (a) of article 11 using operations that did not lead to recovery, recycling, reclamtion, direct re-use or alternative uses.
En la Empresa Electroquímica de Sagua, específicamente en la Planta Clorososa, existe almacenado en los nichos 7 946.867 Kg de lodos mercuriales, así como 1 000.5 Kg de mercurio virgen y 13 165.24 Kg de mercurio recuperado, en botellas, los cuales en estos momentos están confinados en contenedor.

3.5. *Has the party received consent, or relied on a general notification of consent, in accordance with article 3, including any required certification from importing non–parties, for all exports of mercury from the party’s territory in the reporting period?
Yes, exports to parties
☐ Yes, exports to non-parties
☒ No

Additional information if needed
{Empty}

3.6. Has the party allowed the import of mercury from a non-party?
☐ No
☐ Yes
☐ The importing party has relied on paragraph 7 of article 3

Part E – Additional comments on the article in free text if the party chooses to do so
{Empty}

ART. 4: MERCURY-ADDED PRODUCTS

4.1. Has the party taken any appropriate measures to not allow the manufacture, import or export of mercury-added products listed in Part I of Annex A of the Convention after the phase-out date specified for those products?
☐ Yes
☐ No
☐ Yes (implementing paragraph 2 of article 4)

If no, has the party registered for an exemption pursuant to article 6?
☐ Yes
☐ No

4.3. Has the party taken two or more measures for the mercury-added products listed in Part II of Annex A in accordance with the provisions set out therein?
☐ Yes
☐ No

4.4. Has the party taken measures to prevent the incorporation into assembled products of mercury-added products whose manufacture, import and export are not allowed under article 4?
☐ Yes
☐ No

4.5. Has the party discouraged the manufacture and the distribution in commerce of mercury-added products not covered by any known use in accordance with article 4, paragraph 6?
ART. 5: MANUFACTURING PROCESSES IN WHICH MERCURY OR MERCURY COMPOUNDS ARE USED

5.1. Are there facilities within the territory of the party that use mercury or mercury compounds for the processes listed in Annex B of the Minamata Convention in accordance with paragraph 5 of article 5 of the Convention?

- Yes
- No
- I do not know

5.2. Are measures in place to not allow the use of mercury or mercury compounds in manufacturing processes listed in Part I of Annex B after the phase-out date specified in that Annex for the individual process?

**CHLOR-ALKALI PRODUCTION**

- Yes
- No
- Not applicable (do not have these facilities)

If yes, please provide information on these measures.
Se ha desarrollado un proceso inversionista con la puesta en funcionamiento de una nueva planta que deja de utilizar el mercurio en la producción de cloro álcali.

**ACETALDEHYDE PRODUCTION IN WHICH MERCURY OR MERCURY COMPOUNDS ARE USED AS A CATALYST**

- Yes
- No
- Not applicable (do not have these facilities)
If no to either of the questions above, has the party registered for an exemption pursuant to article 6?

- Yes
- No

5.3. Are measures in place to restrict the use of mercury or mercury compounds in the processes listed in Part II of Annex B in accordance with the provisions set out therein?

- Yes
- No
- Not applicable (do not have these facilities)

**VINYL CHLORIDE MONOMER PRODUCTION**

- Yes
- No
- Not applicable (do not have these facilities)

**SODIUM OR POTASSIUM METHYLATE OR ETHYLATED**

- Yes
- No
- Not applicable (do not have these facilities)

**PRODUCTION OF POLYURETHANE USING MERCURY–CONTAINING CATALYSTS**

- Yes
- No
- Not applicable (do not have these facilities)

5.4. Is there any use of mercury or mercury compounds in a facility using the manufacturing processes listed in Annex B that did not exist prior to the date of entry into force of the Convention for the party?

- Yes
- No

5.5. Is there any facility that has been developed using any other manufacturing process in which mercury or mercury compounds are intentionally used that did not exist prior to the date of entry into force of the Convention?

- Yes
- No

Part E – Additional comments on the article in free text if the party chooses to do so
ART. 7: ARTISANAL AND SMALL-SCALE GOLD MINING

7.1. Have steps been taken to reduce, and where feasible eliminate, the use of mercury and mercury compounds in, and the emissions and releases to the environment of mercury from, artisanal and small-scale gold mining and processing subject to article 7 within your territory?

☐ Yes
☐ No

☐ There is no artisanal and small-scale gold mining and processing subject to article 7 in which mercury amalgamation is used in the territory

If yes, please provide information on the steps.
- En el territorio no existen la minería y el tratamiento artesanales y a pequeña escala del Oro contemplado en el artículo 7 en los que se utiliza la amalgamación de mercurio.

7.2. Has the party determined and notified the secretariat that artisanal and small-scale gold mining and processing within its territory is more than insignificant?

☐ Yes
☐ No

Part E – Additional comments on the article in free text if the party chooses to do so

[Empty]

ART. 8: EMISSIONS

8.1. Identify any Annex D source categories for which there are new sources of emissions of mercury or mercury compounds as defined in paragraph 2 (c) of article 8.

For each of those source categories describe the measures in place, including the effectiveness of such measures, to implement the requirements of paragraph 4 of article 8.

☐ Coal-fired power plants
☐ Coal-fired industrial boilers
☐ Smelting and roasting processes used in the production of non-ferrous metals
☐ Waste incineration facilities
☐ Cement clinker production facilities

Has the party required the use of best available techniques or best environmental practices (BAT/BEP) to control and where feasible reduce emissions for new sources no later than 5 years after the date of entry into force of the Convention for the party?

☐ Yes
Please explain
(La Autoridad competente no posee la información, se podrá contar con ella al finalizar el inventario nacional, previsto en el Proyecto GEF denominado “Desarrollo de una evaluación inicial de Minamata en Cuba”)

Una estrategia de control de múltiples contaminantes que aporte beneficios paralelos para el control de las emisiones de mercurio;
El Gobierno cubano, desarrolla un Macroprograma de Recursos Naturales y de Medio Ambiente, dentro del cual se encuentra un Proyecto para el confinamiento de los desechos peligrosos, este Macroprograma es revisado permanentemente por la Dirección del país.

Attach relevant documentation
{Empty}

8.2. Identify any Annex D source categories for which there are existing sources of emissions of mercury or mercury compounds as defined in paragraph 2 (e) of article 8.
For each of those source categories, select and provide details on the measures implemented under paragraph 5 of article 8 and explain the progress that these applied measures have achieved in reducing emissions over time in your territory:

- **COAL-FIRED POWER PLANTS**
  - A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
  - Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
  - Use of BAT/BEP to control emissions from relevant sources
  - Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
  - Alternative measures to reduce emissions from relevant sources

**Measures**
{Empty}

**Progress**
{Empty}

- **COAL-FIRED INDUSTRIAL BOILERS**
  - A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
  - Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
  - Use of BAT/BEP to control emissions from relevant sources
  - Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
  - Alternative measures to reduce emissions from relevant sources
SMELTING AND ROASTING PROCESSES USED IN THE PRODUCTION OF NON-FERROUS METALS

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

WASTE INCINERATION FACILITIES

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
- Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
- Alternative measures to reduce emissions from relevant sources

CEMENT CLINKER PRODUCTION FACILITIES

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
Use of BAT/BEP to control emissions from relevant sources

Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions

Alternative measures to reduce emissions from relevant sources

**Measures**
{Empty}

**Progress**
{Empty}

Have the measures for existing sources under paragraph 5 of article 8 been implemented no later than 10 years after the date of entry into force of the Convention for the party?

- Yes
- No

Please explain

El Gobierno cubano, desarrolla un Macroprograma de Recursos Naturales y de Medio Ambiente, dentro del cual se encuentra un Proyecto para el confinamiento de los desechos peligrosos, este Macroprograma es revisado permanentemente por la Dirección del país.

8.3. Has the party prepared an inventory of emissions from relevant sources within 5 years of entry into force of the Convention for it?

- Yes
- No

- Have not been a party for 5 years

8.4. Has the party chosen to establish criteria to identify relevant sources covered within a source category?

- Yes
- No

8.5. Has the party chosen to prepare a national plan setting out the measures to be taken to control emissions from relevant sources and its expected targets, goals and outcomes?

- Yes
- No

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}
9.1. Are there, within the party’s territory, relevant sources of releases as defined in paragraph 2 (b) of article 9?

- Yes
- No
- I do not know

9.2. Has the party established an inventory of releases from relevant sources within 5 years of entry into force of the convention for it?

- Yes
- Relevant sources do not exist in the territory
- Have not been a party for 5 years
- No

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 10: ENVIRONMENTALLY SOUND INTERIM STORAGE OF MERCURY, OTHER THAN WASTE MERCURY

10.1. Has the party taken measures to ensure that the interim storage of non-waste mercury and mercury compounds intended for a use allowed to a party under the Convention is undertaken in an environmentally sound manner?

- Yes
- No
- I do not know

Please indicate the measures taken to ensure that such interim storage is undertaken in an environmentally sound manner and the effectiveness of those measures.

En la entidad existe 1 000.5 Kg. de mercurio virgen en botellas y 13 165.24 Kg. de mercurio recuperado, derivado del proceso de desactivación de la planta, envasado en botellas. Todas estas botellas se encuentran en almacenamiento provisional, con las medidas de seguridad y el debido control.

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 11: MERCURY WASTES

11.1. Have measures outlined in article 11, paragraph 3, been implemented for the party’s mercury waste?
Please describe the measures implemented pursuant to paragraph 3, and please also describe the effectiveness of those measures.
En caso afirmativo, sírvase describir las medidas adoptadas con arreglo al párrafo 3 y la eficacia de esas medidas.

a)– Están implementadas acciones que garantizan una gestión ambientalmente racional de los desechos, en tres direcciones:
- Control de la calidad de la materia prima y del proceso tecnológico, para minimizar la generación de lodos mercuriales.
- Confinamiento seguro de los lodos mercuriales en nichos especialmente habilitados para ello, existiendo en planta una batería de estas construcciones que cumplen con los requerimientos y cuya ejecución está amparada en Licencia Ambiental otorgada por la autoridad ambiental.
- Recuperación del mercurio resultante de la desactivación de la tecnología, re envasado en botellas y almacenadas de forma segura, para su posterior reutilización.

b) Se ha garantizado la recuperación del mercurio excedente o que estaba en uso en el momento de la desactivación de la tecnología, re envasándose en botellas y almacenadas en condiciones seguras para su posterior reutilización.

c) No se han ejecutado acciones de transportación.

11.2. Are there facilities for final disposal of waste consisting of mercury or mercury compounds in the party’s territory?

![Options]

Part E – Additional comments on the article in free text if the party chooses to do so

Part E – Additional comments on the article in free text if the party chooses to do so
ART. 13: FINANCIAL RESOURCES AND MECHANISM

13.1. Has the party undertaken to provide, within its capabilities, resources in respect of those national activities that are intended to implement the Convention in accordance with its national policies, priorities, plans and programmes?

☐ Yes
☐ No

Please specify
El Estado y Gobierno financió la inversión de sustituir la tecnología de producción de cloro álcali a través de celdas mercuriales, por una tecnología con igual propósito pero sin daños a la salud y al medio ambiente

Please provide comments, if any.
{Empty}

13.2. Supplemental: Has the party, within its capabilities, contributed to the mechanism referred to in paragraph 5 of article 13?

☐ Yes
☐ No

Please specify
Cuba no posee recursos financieros, para solucionar sus propios problemas con los desechos peligrosos de sales y lodos mercuriales.

Please provide comments, if any.
{Empty}

13.3. Supplemental: Has the party provided financial resources to assist developing-country parties and/or parties with economies in transition in the implementation of the Convention through other bilateral, regional and multilateral sources or channels?

☐ Yes
☐ No

Please specify
Cuba no posee recursos financieros, para solucionar sus propios problemas con los desechos peligrosos de sales y lodos mercuriales.

Please provide comments, if any.
{Empty}

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}
ART. 14: CAPACITY-BUILDING, TECHNICAL ASSISTANCE AND TECHNOLOGY TRANSFER

14.1. Has the party cooperated to provide capacity-building or technical assistance, pursuant to article 14, to another party to the Convention?

☐ Yes
☐ No

Please specify
En estos momentos se preparan los recursos humanos que además podrán prestar asistencia técnica y para ello se requiere de la cooperación internacional.

14.2. Supplemental: Has the party received capacity-building or technical assistance pursuant to article 14?

☐ Yes
☐ No

Please specify
No se ha dispuesto de los recursos para la preparación del personal con apoyo de la cooperación internacional.

Please provide comments, if any.
{Empty}

14.3. Has the party promoted and facilitated the development, transfer and diffusion of and access to, up-to-date environmentally sound alternative technologies?

☐ Yes
☐ No
☐ Other

Please specify
Se adquirió una tecnología de membrana para la sustitución de la producción de cloro álcali, con tecnología mercurial.

Part E – Additional comments on the article in free text if the party chooses to do so
{Empty}

ART. 16: HEALTH ASPECTS

16.1. Have measures been taken to provide information to the public on exposure to mercury in accordance with paragraph 1 of article 16?

☐ Yes
☐ No
16.2. Have any other measures been taken to protect human health in accordance with article 16?

- Yes
- No

Supplemental: If yes, describe the measures that have been taken.
Is in the National Priorities of the HUman Health Care

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 17: INFORMATION EXCHANGE

17.1. Has the party facilitated the exchange of information referred to in article 17, paragraph 1?

- Yes
- No

Please provide more information, if any

{Empty}

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 18: PUBLIC INFORMATION, AWARENESS AND EDUCATION

18.1. Have measures been taken to promote and facilitate the provision to the public of the kinds of information listed in article 18, paragraph 1?

- Yes
- No

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 19: RESEARCH, DEVELOPMENT AND MONITORING

19.1. Has the party undertaken any research, development and monitoring in accordance with paragraph 1 of article 19?
If yes, please describe these actions
La Oficina de Regulación y Seguridad Ambiental como autoridad reguladora nacional, tiene contratado a nivel de monitoreo de metales pesados en las principales bahías del país.

Se requiere de transferencia de tecnología para eliminar determinadas actividades e implementar las buenas prácticas. Se demanda de capacitación del personal encargado de regular.

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}
