Q12 ii. Supplemental: Please provide any related information, for example on the use or disposal of mercury from such stock and sources.

During the reporting period there was one chlor-alkali facility using mercury electrolysis process in Finland. This process was shut down in December 2017. Mercury from this facility is considered to be waste, and most of it has already been sent for disposal (stabilization followed by underground disposal) in Germany.

There is also one zinc smelter which generates mercury. The amount of mercury generated varies annually. In 2017 and 2018 it exceeded 10 metric tons. This mercury is also considered to be waste and sent for disposal (stabilization followed by underground disposal).

Q13 5. Has the party received consent, or relied on a general notification of consent, in accordance with article 3, including any required certification from importing non-parties, for all exports of mercury from the party's territory in the reporting period? (Para. 6, para. 7.) **No (not applicable, no exports from Finland)**

Q14 If yes, a. and the party has submitted copies of the consent forms to the secretariat, then no further information is needed. If the party has not previously provided such copies, it is recommended that it do so. Otherwise, please provide other suitable information showing that the relevant requirements of paragraph 6 of article 3 have been met. Supplemental: please provide information on the use of the exported mercury. -

Q15 Kindly attach all relevant information here -

Q16 b. If exports were based on a general notification in accordance with article 3, paragraph 7, please indicate, if available, the total amount exported and any relevant terms or conditions in the general notification related to use. -

Q17 Kindly attach any relevant information here -

Q18 Part E. As per agreed reporting format, Parties are invited to provide additional comments on this article in free text. Kindly use the box below. -

Q19 2. Are there facilities for final disposal of waste consisting of mercury or mercury compounds in the party's territory? **No**
