Subject: Progress of the Intersessional Work for the Sixth Meeting of the Conference of the Parties to the Minimata Convention (COP-6)

Dear Madam,

Reference to your letter no. MC/ES/2024/46 dated 18 October 2024 to submit information regarding their waste management regulations and programs.

The Environment Public Authority (EPA), State of Kuwait, has clarified that there is currently no special facility for the treatment or disposal of mercury. Wastes containing mercury have not long been dealt with, and if mercury-containing wastes are received as they are preserved in special containers and backfilled in the hazardous wastes' refrigerant.

Thanking and assuring you of our best cooperation.

Yours sincerely,

Eng. Samirah Mohammed Abdullah AlKandari
Acting Director General

Director of International Relation Dept.
