

COP-4 INDONESIA
ONLINE 1-5 NOVEMBER 2021
BALI 21-25 MARCH 2022
MAKE MERCURY HISTORY

MINAMATA
CONVENTION
ON MERCURY

IMPLEMENTING THE SDGS AND ACHIEVING MUTUAL BENEFITS THROUGH CROSS-CLUSTER COLLABORATION BETWEEN BIODIVERSITY AND CHEMICAL WASTE CLUSTERS

There is an urgent need to address the triple planetary crises – climate change, nature loss, and pollution – in an integrated manner. The event aims to raise awareness on the need and ways to strengthen coordination and collaboration between the biodiversity and chemicals and waste clusters to support coherent implementation of MEAs and SAICM. The event builds on a project funded by the Nordic Council of Ministers that included an expert consultation workshop organized by UNEP.

LIST OF SPEAKERS

- Jerry Harrison, UNEP-WCMC
- Kateřina Šebková, SCRC, Central and Eastern Europe
- Patrick Umuhoza, Rwanda Environment Management Authority (REMA)
- Claudia ten Have, Secretariat of the Minamata Convention
- Neil Pratt, Secretariat of the Convention on Biological Diversity (CBD)
- Tuulia Toikka, Ministry of the Environment, Finland
- Tita Korvenoja, UNEP

TUESDAY, 8 MARCH 2022

12H30-13H30 CET
